TOWN AND COUNTY.

BREVITIES.

Miners' Union Picnic to-day at Carson.
The tin roof is being placed on Rothoff's
stable.There will be a meeting of the State
Board of Agriculture to-day.Senator M. D. Foley and wife departed
for Eureka yesterday morning.Supt. Gilman, of the Eureka and Pal-
isade road, was a passenger for Eureka
yesterday morning.The Elko public schools opened Monday
with an attendance of 114 pupils in the
three departments.The Nevada Tribune says it doesn't
appear to be definitely known when coin-
ing will be commenced at the Mint.The Comstock mines last week sent
4,000 tons of ore to the mills. This aver-
aged \$25 per ton, making a value of
\$100,000.Excellent, reliable and economical are the
stoves and ranges sold by Lange & Schmitt.
Every house and store should have them.
Call and inspect before purchasing.The Knights of Honor are making pre-
parations to give a grand picnic excu-
sion to Donner lake some time in the near fu-
ture before fair week.The new front of the First National
Bank annex, on Second street, is being
run up after the style of the handsome
front in the new Paving building, on
Virginia street.C. M. Fassett leaves this morning for
Spokane Falls and Nevada loses one of its
best and most promising young men. The
Journal wishes him good luck and an
honorable career in his new home.A Virginia paper says that the Alta,
Justice, Chollar, Norcross, Overman, Po-
tosi, Savage and Yellow Jacket mines have
each enough ore in sight to keep a 20-
stamp mill running for upward of a year.Owing to the scarcity of water the
patrons of the Carson Water Company are
notified that irrigation will be permitted on
Tuesdays and Saturdays only. The Super-
intendent says the necessity for this order
is imperative, and that cheerful compliance
on the part of consumers will save un-
necessary trouble.

NEVADA'S IRRIGATION SURVEYS.

A Change in the Local Control—Col.
Bridges Bounded.There has been a change in the control
of the United States Irrigation Surveys in
Nevada. Col. Lyman Bridges has been
summarily relieved from duty as engineer
of this, the Lahontan Division, and Mr.
Wm. Ham Hall, who has supervision over
all of the districts west of the Wasatch
mountains, has been ordered for the time,
in addition to his duty as Supervising En-
gineer and as acting Division Engineer
of the California Division, to take execu-
tive charge of all work in the Lahontan
Division, also.It is said that the money allotted to this
Division has been expended much more
rapidly than was expected, and that be-
cause of this, the season's work here must
soon be closed and the field parties dis-
banded. Mr. Hall has been about the
District for several days past and went to
San Francisco last night. He will soon
return for a general examination over the
field of the Surveys, preparatory to mak-
ing plans of work and the report on Ne-
vada irrigation prospects, to Director Pow-
ell in Washington.

Sending Short-horns to California.

The Silver State says Captain Joseph
Marzen, of Lovelocks, will ship a carload
of short-horn cattle from his herd to the
California State Fair to compete for prizes.
It would be a good advertisement for
Nevada to have Humboldt cattle get away
with the prizes at the California State
Fair.

A Rich Strike.

The Silver State reports that the wel-
come news comes from Spring City well
authenticated, that a rich and apparently
large body of ore was cut in Tunnel No. 1
of the Paradise Valley mine last Saturday
night. No. 1 is the level which produced
the richest body ore ever found in the
mines.

Sale of Steers.

A. F. Frostdale sold, Saturday, to Geo.
Pitt, of Lovelocks, fifty or sixty steers.
Mr. Pitt is buying cattle for the purpose
of driving them to Churchill county to be
fattened.

THE NEVADA STATE UNIVERSITY.

(By President L. D. Brown.)

It is to be set down to the lasting credit
of the founders of Nevada as a State that
they provided for a complete system of free
schools from the elementary grades to the
University. Narrow minded, selfish and
sectarian influences at different periods in
the history of our country have opposed all
free schools. First, the attack was made
against the common schools. Then the
higher school was assailed and later the
University was opposed by the class
named. But the cause of the people has
thus far triumphed over all foes, and to-
day the State and the Nation are boldly
proclaiming it their duty to support and to
hasten the education of all the youth of
the land.The unparalleled and gratifying pro-
gress of the Nevada State University
during the last two years is largely due to
the wise legislative act of February 7,
1887, by which the institution was placed
upon a practical basis with a President
and a Board of Regents to whom all nec-
essary authority for the development and
management of a University was granted.
The first Board of Regents under the Act
of 1887 consisted of Governor Stevenson,
Secretary of State Dyer and Superin-
tendent of Public Instruction, Doye.
These gentlemen called LeRoy D. Brown,
then State Superintendent of Public In-
struction in Ohio to the Presidency and as-
signed to him the task of organizing the
University. Two years ago he began this
work with one Professor as his assistant
and some thirty odd students. The one
building on the grounds was neither com-
pleted nor furnished but as time progressed
the number of students and the number in
the Faculty increased.With this came additions to the build-
ings, to the library, to the cabinets and to
all things else that are necessary to the
welfare of a University, so that to-day Ne-
vada may honestly claim that there is no
school in the entire country so well pre-
pared to undertake the higher education
of her young people as her own Uni-
versity.In the first place there is an able Faculty
of ten professors, each of whom is a skill-
ful teacher and a specialist in some de-
partment. Then the number of students
being less than one hundred and fifty,
there is ample opportunity for each pro-
fessor to give attention to the individual
members of his classes, a prime necessity
in all schools, but a feature of education
that is always lacking in large colleges.The courses of study include in the
Preparatory, the Business and Normal De-
partments and in the college courses, the
School of Agriculture, the School of Mines,
the School of Mechanic Arts and the
School of Liberal Arts. All these are in
successful operation this term.The expenses of students are as light as
it is possible to make them. Tuition in all
the departments is free. Boarding and
room rent cost on an average about twenty-
five dollars per month.In laboratory work there are no fees but
the students provide themselves with their
own text books, chemicals, etc.In the School of Agriculture, employ-
ment is given at fair wages to nearly all
students that desire to earn a part of their
college expenses.Military instruction is given by an officer
of the United States Army, a graduate of
West Point, to all male students and
physical training adapted to young women
is also a part of the curriculum.The University from the beginning has
co-operated with the common schools and
before the close of the present year it is
confidently expected that arrangements will
be made by the State Board of Education
whereby the graduates of the common
schools may be permitted to enter the
preparatory or other courses at the Uni-
versity without any extended examination;
at this time the entrance examinations are
such that the graduates of the public
schools find no great difficulty in passing
them. The prospects of education in our
State were never as bright as they are to-
day, and Nevada is justly proud of all
her free schools of which the last to be
organized but not the least in influence, is
her young and growing University.

Karl Gardner.

"Fatherland," a new romantic and pic-
turesque drama of Tyrolean life, will be
given at McKissick's next Friday night,
with the talented German dialect comedian,
Karl Gardner, in the principal part. The
play is the combined work of Sidney R.
Ellis and Mr. Gardner, and is remarkably
strong and effective. As Herman Leopold,
a peasant of the Tyrol, who is hunter and
guide, the author-actor gives one of his
happiest impersonations. He is a pic-
turesque figure, and does superior acting in
almost every scene in which he figures.
He sings songs of the Tyrol in a way that
leaves nothing to be desired. All the
scenery is new, and illustrates Tyrolean
life with such characteristic genuineness as
"Festtag," the "Spintube" and a "Saenerfest."
The engagement of Mr. Gardner is for
two nights and a matinee, and Saturday
night "Karl, the Peddler," will hold the
board.

Combination Sale.

On Monday, September 30, there will be
a grand combination auction sale at the
State Fair at Reno beginning at 10 o'clock.
Live stock of every description will be
sold, and persons desiring to make sales
will make entries with the Secretary, stat-
ing explicitly what they desire to sell.
Five per cent. commission will be charged
on all sales. For further information apply
to the Secretary at Reno.

Fine Breed of Nevada Rams.

J. G. Ford recently sold to Mr. Potter,
of Monitor Valley, says the Eureka San-
tinel, ten rams of his own raising. The
bucks brought \$50 apiece, being, we be-
lieve, the highest price ever paid for
Nevada raised rams. The fleece of one of
the animals sold weighed forty pounds,
and when it is taken into consideration
that the ram is only 12 months old, it is a
pretty good showing for agebrush stock.

ALONG THE RAILROAD.

Rejuvenative Reno—Warning to Tramps
—Riverside Fruit, and Trout Fishing
—Storage of Electricity—The Dry
Carson River Bed—Dr. Rae's Dredg-
ing Opportunity.

Curr. Enterprise.

Rebuilding the burnt district at the lower
end of Reno goes right straight along in
some respects, but in others it does not.
Kilken has his Pollard House rebuilt
substantially of brick, three stories high,
and it will be finished off and furnished in
time for the State Fair. Other hotels are
also similarly reconstructed, and Pothoff's
large new brick stable will shortly claim
the chief business in that line. But the
new railroad depot and the projected big
hotel on the site of the burnt stable and
theater, do not materialize worth a shuck.
One would seem to expect that on the other
hand, but any hope not even the lot have, as yet,
been cleared of the burnt debris prepar-
atory to rebuilding. Beck's new flouring
mill is four times bigger than before the
fire, and ready for active business, but now
there is no water in the river to run it.

THE ELECTRIC LIGHT.

Reno has the glory of being the first
town in Nevada to introduce the electric
light into practical use, but, for the past
few days, there has been more or less
kicking from sundry consumers owing to
an attempt on the part of the company to
equalize their charges, making all pay
their just proportion of the cost of the
light, so will be deservedly have their lights
shut off. The large electric storage plant
at the State Insane Asylum, recently
described in the Enterprise is a pronounced
success in every respect. All the light
needed in and about the institution is
furnished by merely running the dynamo
one day in a week. One of the regular
employees of the Asylum attends to the
engine, using drift wood saved from the
river to fire up under the boiler. There is
no consumption or loss of material in the
storage batteries, therefore the cost of the
light is merely nominal, and away below
that of gas, to say nothing of convenience
and absolute safety.

A TRAMP IN A HOT COOLER.

Tramps are not favored or admitted in
Reno. Stringent measures, from the far-
bucket to hard work, have been adopted,
but nothing seems to be perfectly success-
ful. The railroads bring them in, and they
face the music with sullen desperation.
Wednesday morning a lone tramp in the
caboose detected the starter of a lively
confederacy booming in a room at the
other end of the building from where he
was confined. He made an alarming
 outcry, for he couldn't get out, and the
fire was soon mastered. This was about
6 o'clock in the morning. The Fire
Department steamers were out and active,
and in less than half an hour from the first
alarm they could have turned their streams
loose if required. When that tramp was
turned loose he took for the California
line, unwilling to take another chance of
being roasted to death in the Reno cooler.

RIVERSIDE ITEMS.

Owing to the large ditches for irrigation
and other purposes, high up the river,
there is no water in the section below
the town. The fruit crop is simply
splendid in its abundance, and everybody
has plenty of apples, pears and pumpkins.
Trout fishing would be good were there
any water in the river—also trout.

THE HARBOR MINE.

E. H. Harris's famous mine in the hills
east of Washoe Lake is making a very good
showing of ore on its lower level, recently
tapped by the new tunnel—600 feet in
length. The ore is principally of the
black sulphuretted character, some of it
bearing resemblance to Comstock silver
ore. A day or two since it cut a fine
ledge of rich ruby silver ore, ten inches
wide. All of the ore found on this level is
of a refractory nature, only to be reduced
at the Reno Reduction Works, by roasting,
etc. The rich chute or chimney of fine
gold ore found in the upper levels should
be intersected by this tunnel in about 100
feet further.

THE CARSON RIVER.

Never was so dry before. For miles and
miles below where it emerges from the
mountains it bed is completely dry.
There is some water seepage down about
the mills below Empire, but no water
sufficient for working purposes. The mill
dams are all excellent ones for damming
the water, but they have dammed little
water this dry season. Now is the time
when Dr. Rae's famous steam dredge could
clean up the bed of the river with great
facility—if the snow was run on wheels.
Some of Sam Longworth's wood-driven
used to tell about how they had frequently
waded into huge crannies in the river
bedrock which were knee deep in quick-
silver and amalgam—but now they don't
say anything about it. Carson river is
richer during the Spring floods than at any
other time.

Don't All Speak at Once!

The Gazette says:
There are a plenty of good men in
Washoe who would be able successors to
Senator Emmitt. Among them are C. C.
Powning, W. H. Gould, R. H. Kibbey, Wm.
Thompson, H. H. Beck, W. O. H. Martin,
C. T. Bender, R. H. Fulton, Martin Ward,
Dr. Dawson, R. H. Lindsay, L. D. Ful-
son, J. N. Evans, and if this list is not
large enough to select from, the Gazette
can name others who would represent this
county in the Senate as ably as it ever has
been represented. The people will have
plenty of time to attend to that after the
State Convention has settled the Govern-
mentship, however. We have heard it stated
that the Journal had Hon. M. D. Foley in
training as a dark horse.

Advice to Mothers.

Are you disturbed at night and broken
of your rest by a sick child suffering and
crying with pain of cutting teeth? If so,
send at once and get a bottle of Mrs.
Winslow's Soothing Syrup for Children
Teething. Its value is incalculable. It will
relieve the poor little sufferer imme-
diately. Depend upon it, mothers, there
is no mistake about it. It cures dysentery
and diarrhoea, regulates the stomach and
bowels, cures wind colic, softens the gums,
reduces inflammation, and gives tone and
energy to the whole system. Mrs. Win-
sow's Soothing Syrup for Children Teeth-
ing is pleasant to the taste, and is the
prescription of one of the oldest and best
female nurses and physicians in the
United States, and is for sale by all drug-
gists throughout the world. Price 25 cents
a bottle. feb. 21-sw-ly.

Notice.

On and after July 19, 1889, George
Becker, proprietor of the Reno Soda and
Bottling works, will sell and deliver in
Reno:
Soda, cream and lemon, per doz. \$5
Sarsaparilla, per doz. \$5
Ginger ale, per doz. \$5
Sarsaparilla, per doz. \$5
Fruit bottled beer, per case \$3.50
Fredericksburg San Jose beer, per case \$3.50Lange & Schmitt have just received a
carload of stoves from the East.

& Shoemaker's.Beautiful decorations and wall papers
just in from the East at Osburn & Shoemaker's.All the new buildings in Reno are being
painted with Heath & William's celebrated
ready mixed paints, the best in the world.
For sale only by Osburn & Shoemaker's.

WHAT ON EARTH

Is there any difference in cheap nostrums put up by
Cheap John houses or irresponsible parties at
commonplace profits, rather than take a medicine
of world wide reputation and one that is giving
universal satisfaction at a price? No medicine
in the world is giving such unparalleled
satisfaction for purifying the blood as BROWN'S
BLOOD PURIFIER AND BLOOD MAKER,
and every bottle that does not do its work will
cost you nothing.

OSBURN & SHOEMAKER, Druggists.

Go to Lange & Schmitt's for ranges,
and cook stoves. Best assortment in the
State.When Baby was sick,
We gave her Castoria.When she was a Child,
She cried for Castoria.When she became Miss,
She clung to Castoria.When she had Children,
She gave them Castoria.

Be Sure

If you have made up your mind to buy
Hood's Sarsaparilla do not be induced to take
any other. Hood's Sarsaparilla is a peculiar
medicine, possessing, by virtue of its peculiar
composition, proportion, and preparation,
a curative power superior to any other article.
A Boston lady who knew what she wanted,
and whose example is worthy imitation, tells
her experience below:

To Get

"In one store where I went to buy Hood's
Sarsaparilla the clerk tried to induce me to
buy their own brand of Hood's; he told me their's
would last longer; that I might take it on ten
days' trial; that if I did not like it I need not
pay anything, etc. But he could not prevail
on me to change. I told him I knew what
Hood's Sarsaparilla was. I had taken it, was
satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla
I was feeling real miserable, suffering
a great deal with dyspepsia, and so weak
that at times I could hardly stand. I looked
and had for some time, like a person in con-
sumption. Hood's Sarsaparilla did me no
much good, but I went on at myself sometimes,
and my friends frequently speak of it." Mrs.
ELIZ A. GORR, 61 Terrace Street, Boston.

Sarsaparilla

Sold by all druggists. \$1.00 for \$2. Prepared only
by C. H. HOOD & CO., Apothecaries, Lowell, Mass.
100 Doses One Dollar

50c a pair,

250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 60x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO!

Has 5,000 Population and is Growing Rapidly.

The Loveliest Town

The Cleanest Town.

The Wealthiest Town!

The Healthiest Town!

RENO

Is Supported by the Richest

Farming Country of Nevada,

Northern California and South-

ern Oregon.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

29.—Consolation purse.

TEHAMA COUNTY,

10,378 27-100 Acres.

Township 26 N, Range 7 W, Mt.

Diablo Meridian.

This township lies on the eastern slope of the

Coast Range of mountains, and from 13 to 20

miles west from Red Bluff, the county seat of

Tehama County. The field notes of the U. S.

Surveyor who laid out this township, say: "This

township is well adapted for grazing, as it affords

pasture for large herds of cattle. It is well

watered by the various tributaries of Elder

creek. It is also very valuable for its timber,

which consists of a heavy growth of yellow and

sugar pine, spruce and cedar. There is a heavy

undergrowth of chaparral, chemical and manzanita.

The even sections are in most instances

government land, so that the parts most valuable

as adjuncts to this range might easily be secured

at government price, namely \$2 50 per acre for

single quarter sections.

In Section 9, coal was discovered recently by

one resident, but owing to the fact that the

mine, although small, is well adapted for

developing the coal to be of excellent qual-

ity.

We are assured that a Railroad heading for the

Coast, and running through the Coast Range lim-

ber belt will be built very near this range. For

the whole, consisting of 10,378 27-100 acres will

be \$55,000.

TERMS—One-third cash, and balance in two

equal yearly payments. Apply to

GREENWOOD & DEWOLF,

Owners,

No. 418 Montgomery Street, S. F.

Or at JOURNAL Office, Reno, Nevada.
